## THE WILLOW BAG®

If your church is looking for an offering collecting tool that's nonthreatening to the seeker, pleasing to look at and can match your color scheme, then consider The Willow Bag from BeMent Mill Craft.

We are the original designers and makers of the handcrafted offering bags used at Willow Creek Church. We would be delighted to make offering bags that would complement your church in it's effort to collect the offering and tithes of your members.

By means of color selection of the bag shell and liner fabric and the stain for the Baltic birch wood, the bags are custom made for your church's interior design.

For pricing and further information, please give us a call, E-mail us, or fax/ mail the information request form and we can send you a quote.
